DETAILED ACTION

1. Claim 9 has been cancelled.
2. Claims 1-8 and 10-22 are allowed.

The following is an examiner's statement of reasons for allowance: the primary reason for allowance of the (apparatus and method of) claimed invention is the inclusion of, inter alia, a circuitry configured to, during a setting phase, reduce the value of at least one capacitor with respect to its normal operating value. None of the prior art of record, either considered alone or in combination, discloses an apparatus for (or a method of) correcting an offset of an amplification and low pass filtering chain having a cut-off frequency depending on a value of at least one capacitor that includes the reduction the value of the at least one capacitor with respect to its normal operating value. Thus, claims 1-8 and 10-22 are allowed.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
